21 The authors are grateful for discussions with and comments from many colleagues, especially
22 during the Genome Workshop at the 2004 SON annual meeting, Estes Park, CO, August 2004
23 (Bird, 2004), and the Helminth Genome Sequencing Meeting organized by Prof. R. Maizels and
24 held at the Sanger Institute, Cambridge, UK, March, 2004. In particular we thank Prof. Maizels
25 for allowing us to draw from his report of that meeting in preparing this document.
